HTML	3	10 years
Java	4	2 years
JavaScript	3	5 years
Lisp	1	1 year
<b>Other skills</b>		
SVN, CVS, VSS	5	10 years
Rational Rose, MS Visio, Poseidon, Together, Dia	4	5 years
MS Project	4	3 years
Bugzilla, Jira	5	9 years
UML	4	4 years
<b>Operating Systems</b>		
Linux	5	10 years as administrator, programmer
Windows	5	12 years as power user, programmer
<b>Network Technologies</b>		
TCP/IP, HTTP, FTP, Mail, DNS, SSH	5	12 years
Apache, BIND, ProFTP, Sendmail, etc.	5	10 years as administrator
<b>Databases</b>		
MySQL	5	5 years
PostgreSQL	2	Less then 1 year
MS Access	2	Less then 1 year
MS SQL	4	2 years
Oracle	4	2 years

**Additional:** Experienced in managing team of 15 developers.

## Education

Tomsk Polytechnic University. Specialization “Electrical equipment of flying machines”.

## Professional Experience

**2010 - now**

**Parallels, inc** (<http://www.parallels.com>)

Refactoring low-level core modules to support new communication protocol with hardware nodes. Developing modules for new protocol.

**Used technologies:** SVN, Jira, Perl, MySQL, HTML.

**2010**

**Open Technologies** (<http://www.opentech.ru>)

Developed price-gathering and parsing system that was used to gather competitor's prices and to build own optimized wholeprices for internal use.

**Used technologies:** SVN, Java + Hibernate, MySQL, HTML.

**2010**

**Media-master** (<http://www.mediam.ru>)

Developed price-parsing system that was used in price publishing system.

**Used technologies:** SVN, PHP, Bugzilla, MySQL, HTML.

**2008 - 2009**

**RU-CENTER** (<http://www.nic.ru>)

Developed semi-automatic testing system for RU-CENTER web-based projects which allowed to collect test results, add new tests, integrated with Bugzilla bug tracking system to associate tests with bugs.

**Used technologies:** SVN, Perl, Bugzilla, MySQL, HTML.

**2007 - 2008**

**Rusonyx** (<http://www.rusonyx.ru>)

HSPcomplete Maintenance Department Engineer. Worked as system administrator and developer for customization HSPcomplete modules for Rusonyx-specific hosting, mass domain migration between registrars, etc.

**2004 - 2007**

**Parallels, inc (former SWsoft)** (<http://www.parallels.com>)

HSPcomplete Maintenance Department Manager. Organization of the new department “HSPcomplete Maintenance” (<http://swsoft.com/hspcomplete>) in Novosibirsk office of Parallels, managed team of 15 developers divided into 3 sub-teams.

Job Responsibilities: task distribution between developers, make project plans, coordination of sub-teams, architecture development of Domain Manager, Control Panels, controlling mentioned projects, consult support team 24x7 for Domain Manager and other HSPcomplete systems, communication with customers and support teams of organizations for which developed and from which depends HSPcomplete.

Was developed about 30 plug-ins for Domain Manager, which allows register and transfer domains online for different registrars, slave-DNS synchronization system for different platforms, organized and coordinated new team together with support team, created mechanism of custom builds.

**Used technologies:** Perl, XML, HTML, MySQL, CVS, MS Project, MS Visio, Poseidon, Dia.

**2000 - 2004**

**SWsoft, inc** (<http://www.swsoft.com>)

Started as a Web-developer, then as programmer and system architect. Worked on Virtuozzo VPS Control Panel, on Domain Manager architecture and core modules.

**Used technologies:** C++, Perl, XML, XSLT, HTML, MySQL, CVS, MS Project, Together, Dia.

## Languages

- Russian (native)
- English (Reading and writing technical documentation, e-mail communication with customers, speaking level - intermediate)

## Personal

Ability to work in team as member and as leader, ability to be initiative.

## Hobbies

Photography, tourism.
